

Errata for “Applied Regression Modeling: A Business Approach” by Iain Pardoe
Updated November 28, 2006

- **Page 163, problem 4.7 part (e) hint** should read: “*Understanding the example on page 151 will help you solve this part*” (not page 147).
- **Page 282, problem 3.6 part (a) answer** should read: “The least squares equation is $\hat{Y} = 1006.228 - \dots$ ” (not “ $E(Y) = 1006.228 - \dots$ ”).
- **Page 282, problem 3.6 part (e) answer** should read: “ $\hat{Y} = 1028.133 - \dots$ ” (not “ $E(Y) = 1028.133 - \dots$ ”).
- **Page 284, problem 5.2 part (h) answer** should read: “D: X_6 effect = $0.07 + \dots$ ” (not “D: X_2 effect = $0.07 + \dots$ ”).
